

## FOR AUTHORS

### WHO ARE WE?

For more than 55 years, Memorial University Press (formerly ISER Books) has published scholarly books on the North Atlantic region. Aligning with the geographic reality and research priorities of Memorial University, our press has a special – but not exclusive – focus on issues pertinent to Newfoundland and Labrador, and Atlantic Canada more broadly. We are currently the only fully-fledged university press in Atlantic Canada, and publish scholars and experts from national and international institutions.

### WHAT ARE WE LOOKING FOR?

Memorial University Press publishes illuminating and diverse research on the North Atlantic region. Our titles encompass topics ranging from Indigenous issues, to energy and the environment, to food security, to fisheries, to folklore. Our authors include both emerging and established scholars, and academics who work within and across disciplines.

We accept proposals for monographs, collections of essays, critical editions, and research-creation based projects, and welcome manuscripts combining a scholarly focus with wide public appeal.
